SECTION 7 HANDLING AND STORAGE 7.1 Precautions for safe handling > Avoid all personal contact, including inhalation. > Wear protective clothing when risk of exposure occurs. ≻ Use in a well-ventilated area. > Prevent concentration in hollows and sumps. > DO NOT enter confined spaces until atmosphere has been checked. > Avoid smoking, naked lights or ignition sources. > Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Safe Handling >Keep containers securely sealed when not in use. Avoid physical damage to containers. > Always wash hands with soap and water after handling. > Work clothes should be laundered separately. > Use good occupational work practice. > Observe manufacturer's storage and handling recommendations contained within this SDS. Atmosphere should be regularly checked against established exposure standards to ensure safe working conditions. Fire and explosion protection See section 5 7.2 Conditions for safe storage, including any in compatibilities Suitable container ≻ Metal can or drum > Packaging as recommended by manufacturer. > Check all containers are clearly labeled and free from leaks. Storage incompatibility Avoid reaction with oxidizing agents. 7.3 Specific end use(s) Not available SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION 8.1 Control parameters DERIVED NO EFFECT LEVEL (DNEL) Not available PREDICTED NO EFFECT LEVEL (PNEL) Not available **OCCUPATIONAL EXPOSURE LIMITS (OEL)** 8.2 Exposure controls 8.2.1 Appropriate engineering Adequate ventilation should be provided whenever the material is heated or mists are controls generated.
