POWEROIL PEARL H 350 ULTIMA

Applications

Poweroil Pearl H 500 Ultima can be used in a variety of food-related, cosmetic and pharmaceutical applications subject to the applicable laws and regulations in each country (*).

Thermoplastics/Polymer applications

Poweroil Pearl H 500 Ultima is used for producing food-contact or medical rubber articles such as EPDM or butyl rubber. It is particularly well suited for the extension of Thermoplastic Elastomers (TPE), such as SBS, SEBS, SEPS and PS.

Elastomers and Adhesives

Poweroil Pearl H 500 Ultima is also recommended for Hot-Melt Adhesives formulations used in sanitary products.

Cosmetics and Pharmaceuticals

Poweroil Pearl H 500 Ultima has many well-established applications in the pharmaceutical industry, like laxative jellies and ointments, and is also recommended as a component for many cosmetic products, such as creams and body lotions.

() User must check compliance with applicable regulations*
