The above properties are typical values and do not constitute specification of the product

APPLICATION:

- POWEROIL TRANSMISSION FLUID F10 is suitable for transmission fluids meeting Ford ESW-M2C-33F requirements.

PERFORMANCE BENEFITS:

- Compatible with all types of rubber seal materials
- High oxidation stability and hence long service life
- Good anti-wear and anti-corrosive properties, leading to longer life of gear pumps and other system parts
- Good anti-foam characteristics
- Ensures excellent shift feel
- Reduces maintenance cost due to prevention of transmission damage
- Suitable for all seasons
