

POWEROIL PRESS C 220 COMPOUNDED COMPRESSOR OIL

POWEROIL PRESS C 220 oils is a specially developed compounded compressor oil to provide excellent resistance to water washing while lubricating compressors handling wet gases. This oil is formulated from selected paraffinic base stocks with special compounding agent.

CHARACTERISTICS	POWEROIL PRESS C 220
ISO VG	220
Kinematic Viscosity @ 40°C, cSt	210 - 240
Flash point, COC, °C, min	230
Pour point, °C, max	- 6
CCR % Wt.	1.4
Rust test D-665 (A&B) 24 hrs	Pass

The above properties are typical values and do not constitute specification of the product

APPLICATION:

- Recommended for cylinder lubrication of single and multistage air compressors handling wet gases e.g. moist air. It forms stable emulsions with water and provides excellent lubrication of cylinder liners, piston rings and valves, etc.
- Not recommended for crankcase lubrication of compressors.

PERFORMANCE BENEFITS:

- Excellent water washing resistance characteristics
- Forms soft and fluffy carbon deposits
- No adherence of carbon deposits with metal surfaces
- Provides excellent protection against rust and corrosion
- Offers extended oil drain interval
